

iCIMS 16.4 Release:

Profile Redesign

Last Updated Date: 10/24/2016

Introducing the 16.4 Release

The 16.4 Release includes **Profile Redesign** - a new profile design that makes it simpler for you to see rich at-a-glance detail related to the information that's relevant to you.

With Profile Redesign, you will have the ability to access important profile information in the form of configurable factoids and a filterable activity stream, packaged together in a sleek new user interface.

Profile Redesign

- All profiles in the iCIMS Talent Platform have been redesigned, making essential information more readily accessible.
- Each profile now features a profile card, factoids, and a recent activity feed, as well as general UI updates and an improved split-screen functionality.
 - The **profile card** features key details about the person, job, etc.
 - **Factoids** and the **recent activities feed** highlight the essential need-to-knows right up front.
 - The improved **split-screen** view allows users to anchor profile tabs the third column, providing quick access to even more information on candidates or jobs.

Profile Redesign (Cont'd)

The screenshot displays a redesigned user interface for a job profile. On the left, a 'Profile Card' for 'Administrative Assistant' (ID 2016-1013) is shown, including hiring manager information, a status indicator (APPROVED), and a progress bar with 'OPEN' highlighted. Below this are 'Factoids' such as 'Days Open: 72', 'Top Source: Identify Featu...', '# Candidates (Total): 6', and 'New Candidates: 0'. A 'Recent Activity Feed' lists events like 'Expense Created' and 'Email Sent'. The main area shows a 'People' list with 6 results, filtered by status, including bins for 'New Submissions', 'Initial Review', 'Offer', and 'Hiring Manager Review'. On the right, a 'Detail' panel provides 'GENERAL INFORMATION' such as 'Job Code: DJOB', 'ID: 2016-1013', 'External ID: 12345', 'Job Folder: Approved', 'Title: Administrative Assistant', 'Category: Administrative/Clerical', and 'Type: Regular Full-Time'. A callout on the right notes 'Improved Split-Screen View & Enhanced UI'.
