

EQUITY DISAGGREGATION IN CLIMATE AND HEALTH PLANNING WORKSHEET

Partner and Listen & Assess Elements

This worksheet supports climate action to improve health equity. Table 1 helps users think through tailored engagement strategies and how climate change impacts can have disproportionate impacts on some groups and populations. Add additional populations or groups that apply to the jurisdiction.

Table 1: Populations of Focus and Engagement Options

Populations & Groups of Special Focus <i>(Adjust list and add rows to break out specific populations)</i>	Overview of this Group <i>(e.g., percent of population, geographic location)</i>	Climate & Health Needs and Opportunities	Engagement <i>(e.g., ways to approach outreach or partnering)</i>
People from racial and ethnic minority groups			
Tribal communities			
People with lower income			
Women and femme people			
Older adults			
Children and youth			
People from racial and ethnic minority groups

People with disabilities			
Non-English speakers			
LGBTQ+			
Specific nationality or religious groups			
Other identity or intersectional identity group			
Other identity or intersectional identity group			
Other identity or intersectional identity group			

EQUITY DISAGGREGATION IN CLIMATE AND HEALTH PLANNING WORKSHEET

Action Planning

Table 2 helps users plan for action while considering the needs of specific populations or groups. When possible strategies are being considered (in Investigate Options or Prioritize & Plan elements), use this table to think through how those strategies may yield specific benefits, unintended consequences, or harms, and how those could be addressed by additional measures or safeguards. Add additional populations or groups that apply to the jurisdiction.

Table 2: Action Planning			
Population Groups <i>(Adjust list and add rows to break out specific populations)</i>	Potential Benefits	Potential Unintended Consequences or Harms	How to Address <i>(e.g., how can the strategy be adjusted or expanded to protect against unwanted consequences)</i>
People from racial and ethnic minority groups			
Tribal communities			
People with lower income			
Women and femme people			
Older adults			
Children and youth
